

**GLOSSPEL**

# **BUT FIRST, PATCH TEST**

**SO, YOU'VE JUST RECEIVED  
YOUR FIRST GLOSSPEL BOX,  
AND YOU'RE DYING TO GET  
PLAYING WITH ALL YOUR NEW  
BEAUTY PRODUCTS... BUT  
REMEMBER, BEFORE YOU  
SLATHER YOUR SKIN YOU NEED  
TO PATCH TEST AND MAKE  
SURE YOU AREN'T ALLERGIC  
TO ANY OF YOUR NEW  
BEAUTIES... HERE'S OUR  
GLOSSPEL PATCH TEST GUIDE**

## **STEP 1**

**CHOOSE AN ACCESSIBLE AND CLEAR AREA OF YOUR SKIN TO TEST THE PRODUCT. THE SKIN ON THE INSIDE OF YOUR ARM IS A GOOD EXAMPLE OF THE KIND OF AREA YOU CAN USE.**

## **STEP 2**

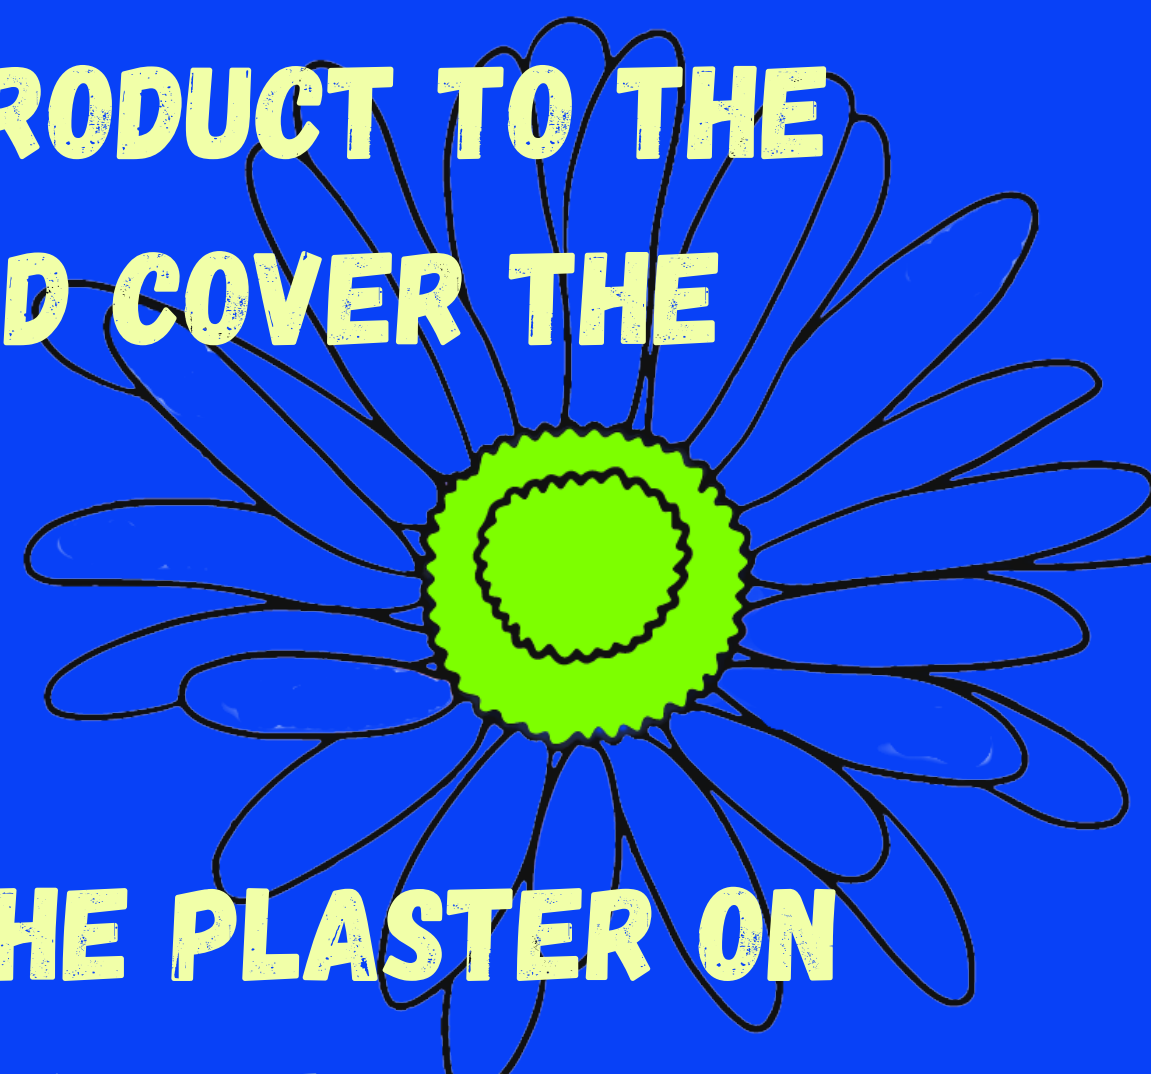

**WASH THE AREA YOU'RE GOING TO BE TESTING ON. IF YOU HAVE A REACTION YOU NEED TO BE SURE IT'S THE NEW PRODUCT THAT'S CAUSING IT.**

## **STEP 3**

**APPLY A SMALL AMOUNT OF THE PRODUCT TO THE PATCH OF SKIN YOU'VE CHOSEN, AND COVER THE AREA WITH A PLASTER.**

## **STEP 4**

**NOW THE WAITING BEGINS. LEAVE THE PLASTER ON FOR 24 HOURS. HOWEVER, IF YOU EXPERIENCE ANY PAIN, BURNING OR ITCHING, YOU SHOULD REMOVE THE PLASTER AND WASH THE AFFECTED AREA RIGHT AWAY.**

**FYI**

**IF YOU'RE ALLERGIC TO THE PRODUCT, IT'LL BE PRETTY EASY TO TELL. WHEN YOU FIRST REMOVE THE PLASTER, YOU MIGHT NOTICE A LITTLE PINK OR RED COLOUR FROM THE PLASTER ITSELF BUT THIS SHOULD SUBSIDE QUITE QUICKLY.**

**IF THE REDNESS DOESN'T GO AWAY THEN YOU MAY HAVE A MILD ALLERGY.**

**IF YOUR SKIN IS RED, RAISED, ITCHY, OR COVERED WITH A RASH, THEN IT IS LIKELY YOU HAVE A SEVERE ALLERGY TO THE PRODUCT.**
